LANGUAGES

- French (Native)
- English (Proficient)

HOBBIES

- Books
- Listening to music
- Movies
- Video games

EXPERIENCES

Internship at the Vrije Universiteit Brussels, ICMI & ORGC laboratories

February - April 2022

- Solid phase peptide synthesis
- Bioconjugation reaction of Nanobodies
- Production and handling of radionuclides

“Exploration Chimie” Project, University of Rouen

September - July 2022

- Interventions in elementary school
- Participation in and organization of project-related events
- Setting up of practical work adapted to children

Internship at the University of Rouen, CARMEN laboratory

April - July 2023

- Organic synthesis under microwave irradiations
- Appel's salt and anthranilic acid's chemistry

Research project at the University of Rouen, CARMEN laboratory

September - July 2024

- Synthesis of amino acid derivatives
- Click chemistry reactions (CuAAC & RuAAC)

EDUCATION

DUT (Technical University Degree) in Chemistry (2020-2022)

- University of Rouen - Institut Universitaire Technologique

Bachelor's degree in Chemistry (2022-2023)

- University of Rouen - UFR Sciences et Techniques

Double Master's degree in Chemistry (2023-2025)

- University of Rouen - UFR Sciences et Techniques
- University of Florence - Scuola di Scienze Matematiche Fisiche e Naturali
